

User Guide Carbon Exchange Platform For User's

Welcome to the Carbon Exchange Platform! This comprehensive user guide will assist you in getting started with our platform and performing various operations. Follow the steps below to make the most of your mining experience :-

1. Create an Account:

Visit our platform's website (<https://carbonexchange.ai>) and click on the "Sign Up" button. Provide your username, email address, and phone number, create a strong password, and complete the registration process. You may need to verify your email address to activate your account.

2. Login:

After completing the registration process, click on "Sign In" and use your credentials to log in to your account. You can use either your Username or Email ID to log in.

3. Explore the Dashboard:

Familiarise yourself with the user interface and various features offered on the Dashboard, such as wallet balance, Buy, Send, Withdraw Carbon Exchange Process, Overview, and Statistics of Carbon Exchange. Navigate through the left side menu bar to access History, Network Explorer, Hyperledger, Web3 wallet, Mining Log, and Subscription Log. On top of the Dashboard, you can view Available Coins in your wallet, the USD value of CCE (Carbon Exchange), and common statistics like Total Available coins, 24-hour's price, 24-hour's volume, Market cap, Circulating supply, Active traders, Live coin value, and Mining Rewards. User statistics include Total coins purchased, Total Coins withdrawn, Total sent coins, Subscription days, Total Mining time, and Total mining reward.

4. Buy:

To start trading or investing in Carbon Exchange, you need to buy Carbon Exchange. Navigate to the "Buy" Button and purchase Carbon Exchange using our Payment Gateway.

5. Send:

Navigate to the "Send" button and enter the hash key of the receiver. Enter the amount of Carbon Exchange you want to send or transfer and then click on the "Send" button to complete the transaction.

6. Withdraw:

For withdrawal, navigate to the "Withdraw" button and add your bank account details (for the first time) to facilitate the transaction. After submitting the details, withdraw your Carbon Exchange, and the money will be credited to your registered bank account.

7. History:

Check all your transaction details in the History section.

8. Profile Section:

View and copy your Hash key to share with others for Carbon Exchange transfers. Manage account settings and add/update your bank account details. Update your profile details. Check login activity and log out from other devices.

9. Security Best Practices:

Avoid sharing your account credentials with anyone. Be cautious of phishing attempts or suspicious links. Use a strong, unique password for your account. Regularly update your password.

10. Customer Support:

If you encounter any issues or have questions, reach out to our customer support team for assistance. Check the "Help" or "Support" section on the platform for FAQs and guides. Remember, investing in Carbon Exchange carries risks, and it's essential to do your research and only invest what you can afford to lose.

Happy trading and investing on our Carbon Exchange Platform!
